

# Advanced Open Water

The Advanced Open Water Course (AOW) is a 2-day course that takes the Open Water Diver to the next level. This course offers 5 dives of which the deep dive and the underwater navigation dive are mandatory dives whilst the student may select any 3 dives such as photography, search & recovery, peak performance buoyancy, night diving, naturalist to name just a few. After completion of the AOW course, the student receives AOW certification and may dive to a maximum depth of 40m (120ft) with experience. This course begins at 10pm daily and includes:

- PADI AOW Manual
- PADI Adventures In Diving Data Carrier
- International PADI Certification
